Subject: Detention Equipment Contractor

Re: Grady County Law Enforcement Center

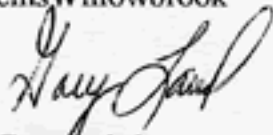

Gentlemen:

I would like to again take this opportunity to commend your company, the staff, the fabrication shop and the installation crew for the quality of the detention products that you furnished and installed on the above-mentioned project. Every aspect of the project from start to finish was handled in a professional manner.

It was a pleasure to have you set a production schedule, hold to it and even exceed the production time and yet remain in control of quality. Though our combined efforts we have given our client a detention facility that with proper maintenance should be a sound and secure building for many years to come.

Our company will always look forward to working with your company in the future.

Sincerely,  
cmsWillowbrook
